Lukas Paul Robertson

EXPERIENCE

IBMB, Perez Lab - Intern

June 2025 - September 2025

Joined a lab which had no prior ML experience, and was tasked to use ML to investigate *C. elegans* gene regulation. From scratch, independently created an ML pipeline with data cleaning, feature engineering, parallelized training, and validation, thereby establishing the lab's current ML capabilities. My work has turned into a new research direction that the lab still pursues.

Screwworm Free Future - Founding researcher

August 2024 - April 2025

Founding researcher at Screwworm Free Future.

Screwworms are a major animal health risk. As a founding member of Screwworm Free Future, I needed to investigate scientific tractability of eradication. I reviewed the literature and talked with researchers and synthesised and communicated findings. I also helped with a broader range of entrepreneurial tasks eg. comms and ops.

Altruisme Efectiu UAB, — *Founder & President*

MARCH 2024 - MARCH 2025

I founded and was the president of Altruisme Efectiu UAB. I designed and held a 7 week fellowship that gave participants 2 ECTS. I also organised speaker events and mentored newer members.

AI Safety Barcelona — Organizer

JUNE 2024 - PRESENT

I am a founding member of AI Safety Barcelona. I help with organising events, outreach and headhunting.

Translator/transcriber

JULY 2023 - JANUARY 2024

Translating and transcribing interviews in English, Spanish and French between stakeholders and project beneficiaries for a humanitarian aid consultant.

Bioinformàtica de la Diversitat Genòmica - IBB, UAB

Melanie Brennan -
EA Barcelona Organizer.

EDUCATION

Universitat Autonoma de Barcelona, UAB , — Bsc. Genetics

2023 - 2027

The only public genetics bachelors degree in Spain. It was the bioscience degree with the highest entry requirements.

42 Barcelona, — Informatics

2024 - current

I am doing a degree in informatics at 42 Barcelona. 42 Barcelona is a programming school based on peer-to-peer feedback and autodidactic learning.

OTHER

Representative of *biosciencias UAB*

December 2025 - PRESENT

I represent the ~2000 bioscience students in university wide forum (*Claustre UAB*) as an independent without party backing. I also represent ~300 Genetics students in the bioscience faculty wide forum as an independent.

Population Genetics Mentorship

September 2024 - PRESENT

I am one of two students who is receiving mentorship from Prof Antonio Barbadilla, an opportunity usually given to final year students. This mentorship is offered on the basis of academic achievement.

Advisor - Karteno

February 2025 - PRESENT

I advise and support Guillem Lajara in his new Spanish effective giving initiative Karoteno.

Global Challenge Priorities Attendant

FEBRUARY 2024

I was given a stipend to attend GCP in England, Oxford.
